

beseder

The brand book for getbeseder.com — turning the tangle in a founder's head into calm, ordered momentum.

A logo built on order

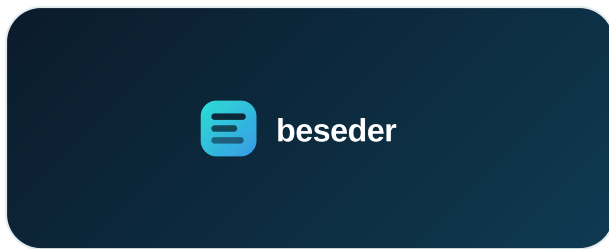

beseder helps founders who carry chaos in their heads turn it into structure. The mark says exactly that: three task lines, neatly stacked inside a soft, approachable tile — the moment a mess becomes a list. Calm teal flows into trustworthy blue.

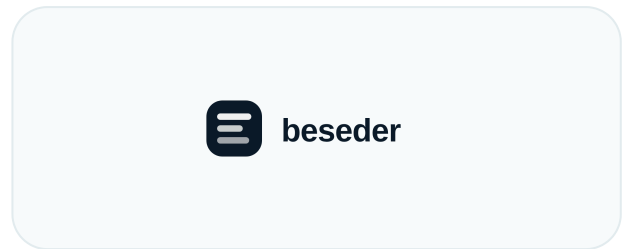

Primary logo — full color. Use this everywhere by default, on light backgrounds.

One identity, every surface

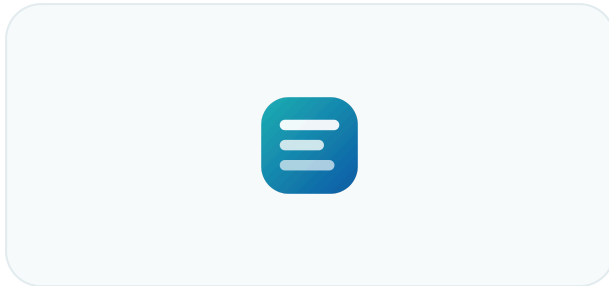

Use the version with the strongest contrast for each background. Never recolor the logo outside of these approved variants.

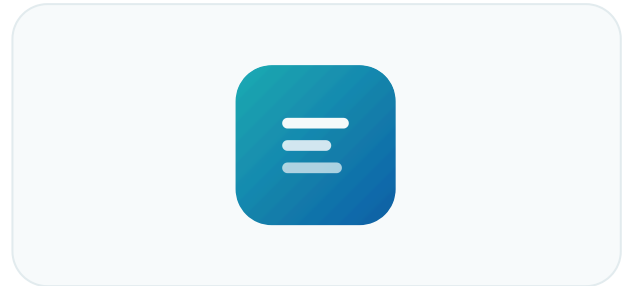

Reversed — for dark or photographic backgrounds.

Monochrome — single-ink print, stamps, faxes, engraving.

Icon / symbol — when space is tight or brand is already established.

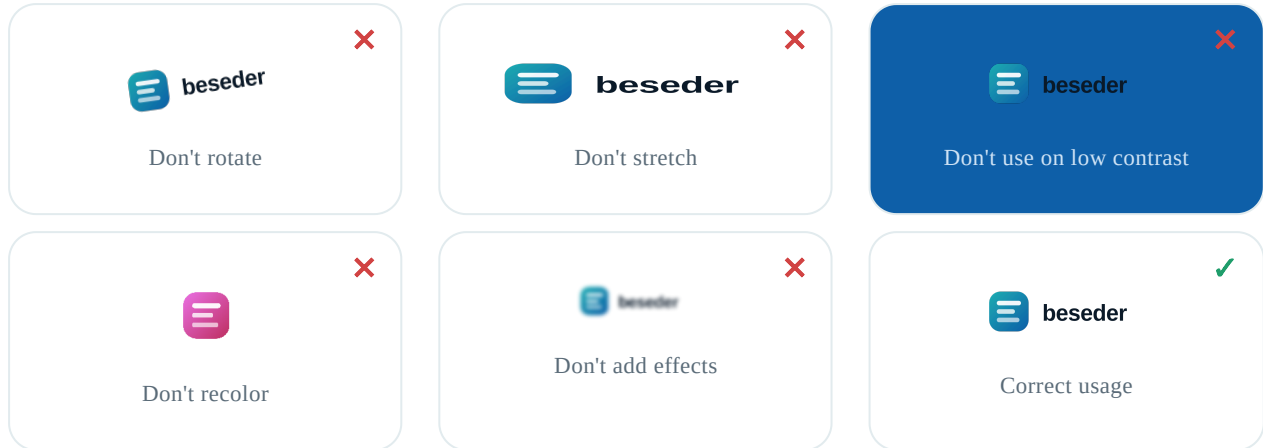

App icon — full-bleed tile for iOS / Android / PWA.

Give it room. Keep it honest.

Protect the logo with clear space equal to the height of the icon on every side. And please — avoid these common mistakes.

Don'ts

Calm teal, trustworthy blue

The palette is intentionally restful. Teal and blue carry the brand; deep ink anchors text; mist and paper give breathing room.

Teal

#1FAEB5 / #16C2BC

Primary brand color. Icons, accents, gradients.

Blue

#0E5FA8 / #1E7FD4

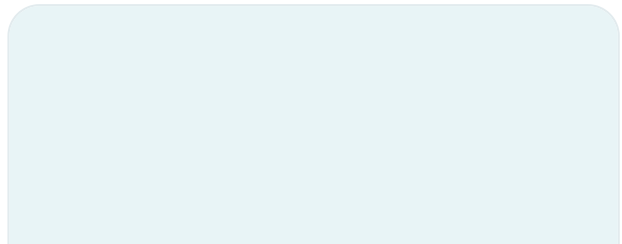

Secondary brand color. CTAs, links, gradient end.

Ink

#0B1B2B

Headlines and body text. Dark backgrounds.

Mist

#E8F4F6

Subtle fills, tags, hover states, section bands.

Signature gradient: **Teal #1FAEB5** → **Blue #0E5FA8**, 135°. Used on the icon and key hero moments.

Geometric headers, humane body

Sora gives the brand a confident, structured voice for headlines and the wordmark.

Manrope keeps body text warm and highly readable. Both are free Google Fonts.
